

Hose Recovery Unit HRU150

Power Slide:

HRU-200, HFS Hose recovery unit complete with powered side shift. Capable of retrieving hoses from 4"-8" (100mm-200mm) depending on coupling type. Hydraulic driven double roller system, with double electronic-eye PLC controlled pressure rollers. Facilitating easy hose retrieval with minimum manpower in minimal time. 2-speeds operable by remote control.

Can be fitted in any of the HFS containers complete with roller rails system, can be operated on both sides of the HFS hose layers. Inclusive flow/pressure control valve, hoses and quick connect couplings for the link-up with the truck's hydraulics. To be powered by trucks PTO-hydraulics (not part of the HRU supply).

Power Tilt:

HRU-200, HFS Hose recovery unit complete with powered tilt.

Hydraulic driven double roller system, with double electronic-eye PLC controlled pressure rollers. Facilitating easy hose retrieval with minimum manpower in minimal time. 2-speeds operable by remote control.

Capable of retrieving hoses from 4"-8" (100mm – 200mm) depending on coupling type.

The Power Tilt feature enables the HRU-200 to be raised from transport position to working position hydraulically. Hose pick up from right hand **or** left hand side. Please specify clearly at order placement.

Can be fitted on any of the adapted HFS containers with single low cabinet. Inclusive flow/pressure control valve, hoses and quick connect couplings for the link-up with the truck's hydraulics. To be powered by trucks PTO-hydraulics (not part of the HRU supply).

Dimensions: (LxWxH in mm) 2330 x 985 x 1100.

Weight: 372 kg.
